

Wonder Light Cure Tray

Wonder Light Cure Tray is an easy molding and strong light curing tray material. It is used for making individual trays and temporary base plates. Wonder Light Cure Tray is ready for use and easy to handle. It has the advantages of uniform thickness, excellent dimensional stability, and no pungent odor. This product eliminates the need for mixing powders and liquids which reduces procedure time.

ADVANTAGES:

- Uniform thickness
- Easy to handle
- Excellent dimensional stability
- No pungent odors
- Easy trimming characteristics
- Excellent adaptation to model
