

WONDERGEL

Holds crowns, veneers, and small castings in place

Wondergel is used during the build-up and contour phases to hold crowns, veneers, and small castings in place. Wondergel is recommended for pressed porcelain veneers, pfm crowns, and alumina and zirconia restorations.

Benefits:

- It's Like Having an Extra Helping Hand
- Easier to Handle Small and Loose-Fitting Restorations
- No Risk of Contamination
- Water-Soluble

Item# 140 (3cc Syringe)
