

## ***DANG GOOD DEBUBBLIZER***

Dang Good Debubblizer is perfect for reducing surface tension and eliminating voids and bubbles when pouring stone models. It also reduces surface tension which allows adherence of investments to patterns or cast. This product is ideal for spraying on impression materials prior to pouring stone and is a non-contaminating solution that eliminates surface oils from wax to ensure a smoother finish.

### ***ADVANTAGES:***

- Saves time
- Produces smooth and accurate models
- Produces bubble-free castings
- Noncontaminating
- Reduces surface tension

**Dang Good Debubblizer – 16 oz.**

**Item#: 621**
