

Perfect Endo Ring

The Perfect Endo Ring is crafted from durable and safe aluminum and is designed for precise root canal measurements with its accurate scale. Its small size, lightweight design, and smooth surface ensure ease of use. The adjustable ring fits comfortably on your fingers, providing precise length measurements to meet your needs. Additionally, it is autoclavable up to 274 °F for effective sterilization.

ADVANTAGES:

- Autoclavable
- Small and lightweight
- Adjustable and comfortable fit
- Easy to use
- Laser etched markings

Perfect Endo Ring – Purple
